PHILIP MORRIS INCORPORATED

Law Department Memorandum
Richmond, Virginia

TO: Rett Southwick, Charles Howe Date: 13 January 1984

FROM: G. Inskeep

SUBJECT: Abienol--related Derivatives/D176

Your disclosure seems to cover the preparation of sclaral, its methyl and ethyl ethers, and sclareodiol, and some comments from informal subjective smoking. To proceed with preparation of a patent application, we should have some quantitative data on flavoring tobacco and at least guesses on useful ranges. Are any of these compounds considered novel?
